

Plant a tree to help our lagoon and local wildlife

Sunday September 18th

September is “Save the Koala” month. The Fawthrop Lagoon Revegetation Project supports our local Koalas. Their numbers are in decline throughout Australia due mainly to habitat loss. SWEE Community Planting Days are your chance to assist the health of Fawthrop Lagoon and its wildlife.

Registration: 11am at the Lagoon - corner of Gawler & Cameron Streets
Come for an hour or two and please bring a spade (work gloves provided)
